

COSHH Risk Assessment

GIANT AEROSOL AIR FRESHENER

Product Code: BG030

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 6 x 750 ml metal, aerosol, pressurised canister sprays. Delivered in single units if required.	Risk of injury to user if dropped.	Take care not to drop the containers. Ensure that the covering cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored in a cool, dry storage area away from sources of heat, including direct sunlight	Extremely flammable. If involved in fire, dangerous gases may be emitted. Lids are not child proof.	Pressurised canister – therefore there is a risk of explosion if involved in a fire or if punctured. Store away from all sources of heat including direct sunlight.	Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel.
USAGE			
High pressure, super power aerosol. Product is dispensed in a dry fog-like spray to clear unwanted odour fast. Product is sprayed into the air via a push-top spray. For use in large public areas.	Risk of eye contact. Risk of ingestion. Risk of skin contact. Risk of inhalation.	Handle the containers with care. Spray product away from the body and face at all times. Ensure that the container is returned to store when not in use. Ensure that the work area is well ventilated at all times. Never spray near sources of heat or incandescent material. Always read the manufacturer's instructions.	Ensure that operatives are aware of location of First Aid facilities and personnel. Ensure that operatives are aware of all fire procedures.
DISPOSAL			
Empty canisters can be disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Ensure that the containers are exhausted prior to disposal. To dispose of residual stock, empty product via spraying outside in an open space. Do not puncture or incinerate even when empty.	No specific protective equipment required.
